

# What's new in the AirAllow Enclave App

Android 2.9.46140 & iOS 2.9.46240

# Enclave App Back Button Navigation

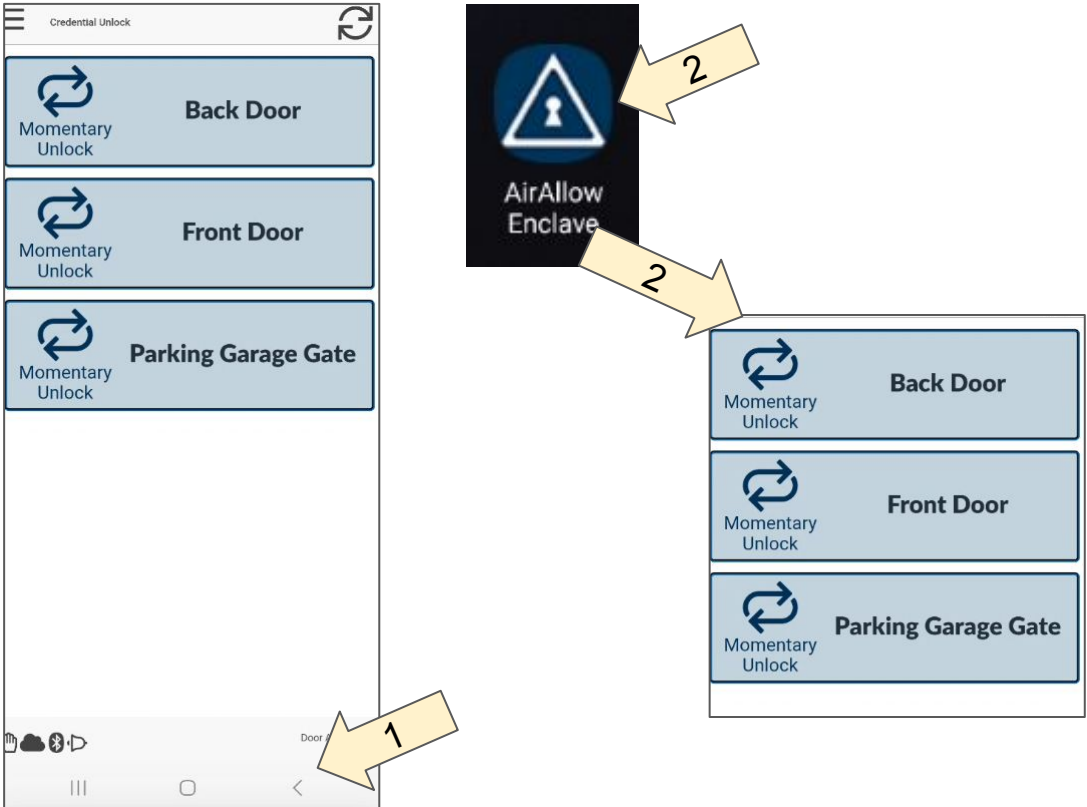

The enclave app has improved navigation and standardized back button functionality.

1. Pressing the back button when the "hamburger menu" is visible from the Credential Unlock Screen put the app in the background.

2. Pressing the back button when the left arrow is visible takes you back to the prior screen.

# Enclave App Background Fast Resume

1. Pressing the back button from the Credential Unlock Screen puts the app in the background where it will continue to operate.
2. Pressing the AirAllow icon again brings up the app from the background without restarting the app as it had in the past.

# Enclave App Background Mode Operation - Hands Free

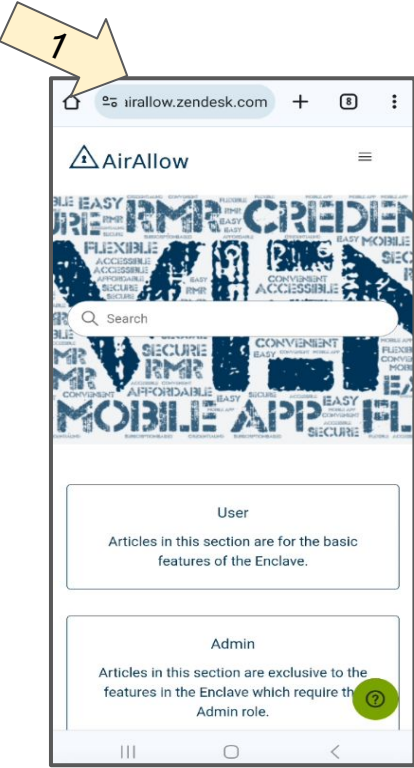

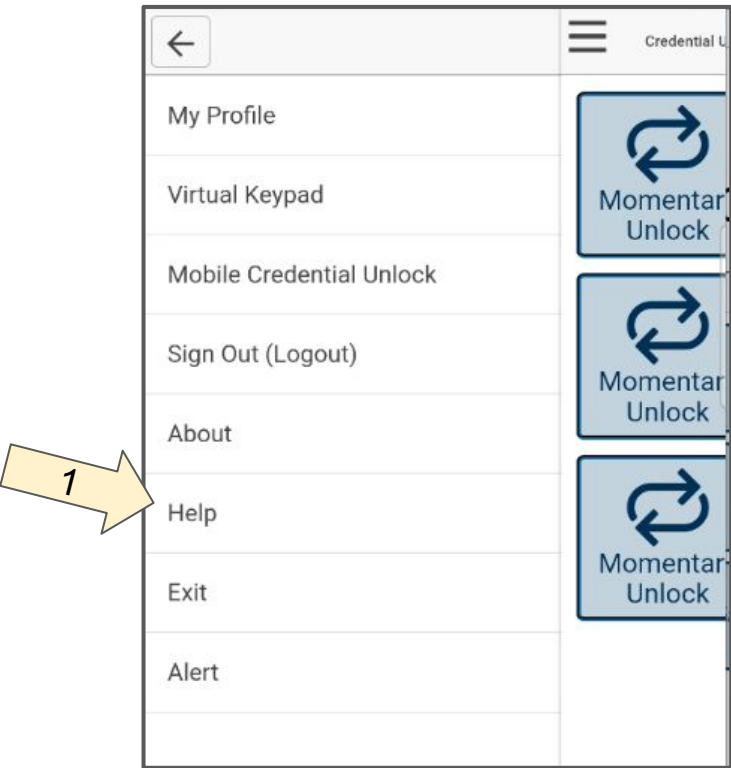

1. When running in the background the app continues to operate including communications with the AirAllow SgS door controller and the AirAllow cloud.\*
2. Hands-free operation are possible when running in the background.

The image shows the AirAllow Demo Site Audit Trail interface. The header includes the AirAllow logo, 'AirAllow Demo Site', and navigation links for 'Audit Trail', 'Door Actions', 'Visitors', 'Users', 'Setup', and 'Access Policies'. Below the header, there is a search bar with 'Filter', 'Search All', 'Start Date', and 'End Date' fields. The main content is a table with columns for 'When', 'Who', 'What', 'Where', and 'Why'. A yellow arrow with the number '2' points to the 'Who' column in the table.

| When ↓                   | Who           | What                               | Where      | Why        |

\* Android Only

# Enclave App Help in Separate Browser

1. Pressing the help menu item now opens a separate browser window instead of in-app, allowing the Enclave app to continue operating.
